## My ENERGY STAR Account

*Welcome, John Doe!*

## Manufacturer/Lab Lookup

Prior to certifying a product for ENERGY STAR and reporting it to EPA, Certification Bodies must confirm that the product belongs to an ENERGY STAR manufacturing partner or applicant, and was tested by an EPA-recognized laboratory. Partners/applicants and recognized laboratories will have EPA-issued Organization IDs you must include on the data template you upload here.

To confirm a laboratory's status and Organization ID, use the search functionality below or view the entire list by visiting [EPA's List of Recognized Laboratories by Product Category](#). You must confirm that the laboratory is listed for the appropriate product category.

\* You must input data or select from at least one field to obtain a list of search results.

Manufacturer Name:

Program:

\*\* Please refer to the [list of EPA-Recognized Lighting Laboratories](#) to find a lab that tests lighting products.

Organization Role:

Laboratory Affiliation:

☒ Show Only My Affiliated Labs☐ Show All Accredited Labs

Organization ID:

City:

State:

Country:

### Requirements - 10/15/2012:

- 1.) The system shall allow the user to search for manufacturers or laboratories from the Manufacturer/Lab Lookup screen in MESA.
- 2.) The system shall allow the user to search for manufacturers/laboratories by Identification O\_ID, Manufacturer/Lab Name, Program, Organization Role, Laboratory Affiliation, City, State, and/or Country.
- 3.) The system shall require the user to select at least one search filter when searching for organizations.
- 4.) The system shall provide a checkbox pick list for the laboratory affiliation with the following options: Show Only My Affiliated Labs and Show All Accredited Labs. Only allow for one selection.
- 5.) The system shall allow the user to cancel the search and return to the MESA landing page.
